

## flash glow holiday skinsolver®

**Menu description:** This 10-minute express peel is your ticket to glowing skin in a flash. Includes a professional Face Mapping® skin analysis, power exfoliation, moisture boost and a flawless finish.

**Benefits:** Refreshes, brightens, smooths

**Treatment time:** 10 minutes performed at **Skin Bar®**

**Suggested cost:** £10.00 €15.00

Begin by inviting your client to take a seat at the **Skin Bar®** and have them quickly complete the abbreviated Consultation Card. Help them to complete the card if necessary and ask additional questions pertaining to their skin health and concerns, also check for any possible contraindications. Perform a sensitivity test for **Exfoliant Accelerator 35** behind the ear to be removed during cleansing stage.

Prepare the customer with a headband and dental bib or disposable towel and clip around the neck. An additional towel may be positioned across the lap to protect clothing.

1. Begin by briefly Face Mapping your customer to address their specific concerns; note signs of dehydration, fine lines and dryness. Ask your client questions throughout about their skin and current regimen, use the mirror to help educate your client. **(1 minute)**
2. Begin cleansing with the **PreCleanse** shortcut by applying 2 pumps of **PreCleanse** to warm disposable wipes. Next dispense 2 pumps of **Skin Resurfacing Cleanser** into a cupped hand, apply evenly over the face, dampen hands and thoroughly cleanse with fingertips. Remove with warm disposable wipes. **Option:** Mix 2 pumps of **Skin Resurfacing Cleanser** with a little water in a jelly cup and apply with a brush and use ultrasonic blade for enhanced skin resurfacing. Remember to remove the patch test. **(1 minute)**
3. Apply 2 pumps of **Daily Resurfacer®** to the sponge disc and evenly distribute over face. Review skin response during application. **(30 seconds)**
4. Put on gloves and fully saturate one square of 2x2 dry gauze with 2-3 pumps of **Exfoliant Accelerator 35**. Ask client to close their eyes before you apply to face starting at forehead, following the **Dermalogica chemical peel application procedure on page 10**. Keep product a minimum of ¼ inch away from the eyes, ears and lips. Allow **Exfoliant Accelerator 35** to penetrate on skin up to 2 minutes. Fan your client's face to keep cool after application. If client is comfortable, repeat the procedure with a second layer. **(4 minutes)**
5. Take off gloves and remove **Exfoliant Accelerator 35** by cleansing with 2 pumps of **Skin Resurfacing Cleanser**. Remove cleanser with damp 4x4 gauze folded in quarters and apply 2 pumps of **Daily Resurfacer®**. **Option:** if skin is sensitised, remove cleanser with warm disposable wipes and omit **Daily Resurfacer®**. **(1 minute)**
6. Spritz the face and neck with **UltraCalming™ Mist**. Apply 4 drops of **Phyto Replenish Oil** or **Skin Hydrating Booster** or a pea sized amount of **MultiVitamin Power Serum** to the skin. **(1 minute)**
7. Moisturise and protect with **Dynamic Skin Recovery SPF50** or **Super Sensitive Shield SPF30**, finish and prime with an even layer of **SkinPerfect Primer SPF30** or **HydraBlur™ Primer**. **(1 minute)**
8. Complete **Face Mapping® skin analysis** recommendations for your client and log findings on the **Face Mapping® Prescription Sheet (1 minute)**

## flash glow holiday skinsolver®

your ticket to glowing skin in a flash

**1 minute** – Begin by briefly Face Mapping your client to address their specific concerns. Remember to patch test.

**1 minute** – Cleanse the skin by applying 2 pumps of **PreCleanse** to warm disposable wipes and begin the removal of any debris or makeup. Next dispense 2 pump of **Skin Resurfacing Cleanser** and complete a thorough cleanse. Remove with warm disposable wipes.

**30 seconds** – Apply 2 pumps of **Daily Resurfacer®** to the sponge disc and evenly distribute over face. Continue your visual **Face Mapping® skin analysis** during application.

**4 minutes** – Put on gloves and apply 2 pumps of **Exfoliant Accelerator 35** to one square of 2 x 2 dry gauze. Follow the peel application procedure. Use hand held fan to keep client's face cool. If client is comfortable, repeat the procedure with a second layer.

**1 minute** – Take off gloves. Remove **Exfoliant Accelerator 35** by cleansing with 2 pumps of **Skin Resurfacing Cleanser**. Remove cleanser with damp 4x4 gauze and apply 2 pumps of **Daily Resurfacer®**. **Option:** if skin is sensitised, remove cleanser with warm disposable wipes and omit **Daily Resurfacer®**.

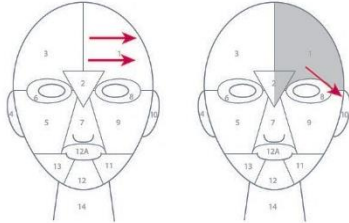

**1 minute** – Spritz the face and neck with **UltraCalming™ Mist**. Apply 4 drops of **Phyto Replenish Oil** or **Skin Hydrating Booster** or a pea sized amount of **MultiVitamin Power Serum** to the skin.

**1 minute** – Moisturise and protect with **Dynamic Skin Recovery SPF50** or **Super Sensitive Shield SPF30**, finish and prime with an even layer of **SkinPerfect Primer SPF30** or **HydraBlur™ Primer**.

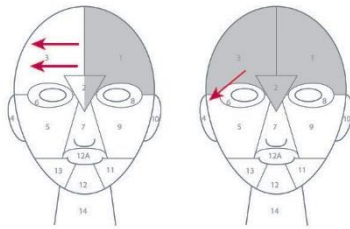

**1 minute** – Complete the **Face Mapping® Prescription Sheet**.

## dermalogica chemical peel application method

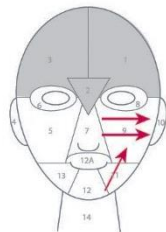

Arrows represent direction of application. Adjust number of wipes to the size of the area. Avoid overlapping application.

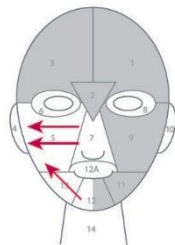

1. Apply from upper Zones 2 and midline 1 (left side of forehead), extending to temples.

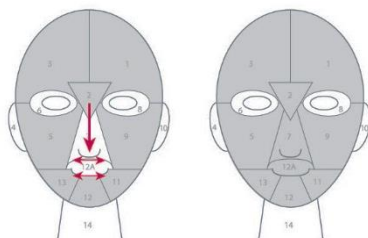

2. Apply to midline right in upper Zones 2 and 3 (right side of forehead), extending to temples.

3. Apply from midline of Zone 12 (left centre chin) up through Zone 11 and Zone 9 (along jaw and cheek).

4. Apply from midline of Zone 12 (right centre chin) up through Zone 13 and 5 (along jaw and cheek).

5. Finish with Zones 7 and 12 a (nose, sides of nose, above and below lips).
