

The **Dermalogica Expert** programme is designed with you, the professional skin therapist, in mind. This 3-tier programme rewards your hard work, knowledge and commitment to education by recognising your professional skills. As you complete more workshops with Dermalogica you will progress higher up the ladder - culminating in the achievement of the ultimate mark of professionalism, Dermalogica Expert status.

Everyone prefers to get advice from an Expert and skincare is no exception! Our unique training programme will help you gain Dermalogica Expert status quicker than you would think.

Start with Certified status, by completing our 4-day Dermalogica Live! workshop. Progress to Specialist in just 6 days of advanced workshops. Dermalogica Specialists can attend our Expert Strength workshops including The IonActive™ Power Treatment and BioSurface™ Peel.

The final 3 days of education will give you Expert status. You'll be recognised as one of the most esteemed therapists in the country, receive a limited edition t-shirt and a marketing pack full of resources to promote your status to the world at large.

Check and track your personal status on the programme at education.dermalogica.co.uk/myeducation where you'll see clearly listed workshops attended and those yet to complete – every student's journey is individual in time-scale and your choice of 'Additional Workshops' personalises your route to becoming a Dermalogica Expert too!

(All 'Additional Workshops' must be completed since 1st March 2012. Previous education will only be valid towards certification if undertaken since the introduction of Dermalogica Live! in 2005. Records of other workshops attended will be retained for reference and available upon request.)
