

Dermalogica[®] ProSkin Treatments (max. 30 students)

Learn about our prescriptive skin treatment and professional products through a LIVE demonstration. Includes discussion on consultation, client care, hygiene and safety, and everything that constitutes good professional practice.

Daily Skin Care A Retail Guide

(max. 30 students)

Prepare your students with the conversation skills and knowledge to provide their customers with an essential daily regimen. We will look at what constitutes a good skin care programme, and how to recommend products confidently. An interactive session that highlights how easy it is to personalise skin care recommendations. The foundation to effective retailing.

Analysing Skin Face Mapping

(max. 20 students)

A hands-on session to explore skin! This workshop will focus on accurately identifying different skin conditions and making links to the lifestyle factors that cause them. Strong analysis skills result in professional recommendations and excellent skin care advice.

Pressure Point Touch Therapy

(max. 20 students)

Get hands-on with our signature Dermalogica® Pressure Point Touch Therapy. This technique combines aromatherapy, acupressure and lymphatic drainage to eliminate toxins and relax tissues. Ideal for skins not indicated for European style massage.

Prep and Prime for Makeup

(max. 24 students)

Great makeup requires a great canvas! Learn about our top products and how to 'prep and prime' a skin prior to creating the perfect look. Students will get some hands-on practice in this session. Ideal for your Beauty Therapy Makeup Units and Media Makeup Students.

Dermalogica[®] with Technology (max. 30 students)

Today's skin care professional delivers both high tech and high touch services! Explore Dermalogica product options for a variety of traditional and cutting edge electrical modalities. Includes a demonstration.

Acne. Allergies. Ageing

(max. 30 students)

Give the right advice. Select the right products. An informative session to understand the top skin care concerns. This mini lecture includes a consultation activity to apply the learnings.

Dermalogica Pro Power Peel

(max. 30 students)

A peel like no other! Incredible skin smoothing and unparalleled customisation with minimal irritation downtime. This workshop covers application technique, neutralisation and removal.

Includes how to effectively analyse, prepare and condition the skin pre and post peel.
