dirty!

dermalogica double cleanse

double cleansing with precleanse balm followed by a dermalogica cleanser

✚ oil and oil-soluble debris ✚ water-soluble debris —● surfactant cleanser ~ blue precleanse balm emulsifier

PreCleanse Balm's emulsifying agents attach to oil-based debris, readying them for removal.

Adding water forms an emulsion, encapsulating oil- and water-soluble debris, and flushing them from the skin's surface.

Now your recommended Dermalogica Cleanser can reach the follicles and pores to remove trapped debris and metabolic waste.

The result is your cleanest skin ever.
